01 OUR STORY

About Jareed

Led by a set of individuals with expertise in different sectors, Jareed was born through the idea of creating a company that merges those skills together. Our first dive into the market was through Remax franchise in 2021, with a vision of gaining better understanding of the market dynamics.

Positioning ourselves as a West Cairo competitor to existing upper-middle-class developers, our team has an eye for spotting opportunities; where they have ventured into several partnerships of residential lands.

The 'Why' Behind Jareed

In the hustle and bustle of today's fast-paced, competitive lifestyle, there are countless everyday heroes who, with belief, pride & optimism, strive consistently to find what they truly value and become better versions of themselves.

But without a peaceful and serene place that welcomes them in, that centers them so they can see the bigger picture again, so they can be ready to take the next step and achieve it with excellence... it's possible to get lost sometimes.

By striking the perfect balance between high-quality developments and convenient pricing, Jareed offers that respite through places that know you, soothe you, value you and push you, bringing those dreams closer and putting you in a state of mind where life can unfold for you, one piece at a time.

The Values we Believe in

Aiming to set an example as a benchmark of quality in real estate developments, Jareed is built on striking a balance between not only providing a thriving work environment for our team, but also doing everything in our power to make customers feel like they are being put first.

At Jareed, we firmly believe that we owe our continued success to our strong set of values, the pillars of how we work... from honesty, credibility and empowerment to perseverance, consistent development and diversified expertise.

However, when it comes to the traits which are most foundational to our every decision, we can classify them as:

Integrity

Ensuring that our actions align with our values and beliefs, even in the face of challenges and pressures. We believe that unwavering transparency, quality and timely delivery are the keys to credibility.

Resourcefulness

We value and employ the power of creativity and resourcefulness to solve complex problems. By cleverly thinking outside the box, our strategies become entirely unique and set us apart from the competition who make use of more than simply the typical norms of the industry.

Flexibility

We recognize the importance of staying flexible and responsive to shifting dynamics, enabling us to adapt and thrive in an ever-changing world. By cultivating a culture of continuous learning and adaptation, we overcome obstacles with speed and efficiency.

Ambition

We believe in the power of ambitious goals to propel us forward, always aiming higher and striving for more. With courage and resilience, we embrace challenges as opportunities for growth, pushing the boundaries of what's possible.

Our Approach

At the heart of our philosophy lies the belief that excellence is born when integrity meets structure. Guided by this principle, we strive to create authentic, transformative experiences, nurture a culture of continuous development, and harness the power of collective knowledge to fulfill our mission and earn the trust of our clients.

To achieve this, we focus on addressing the real estate market's gaps by delivering developments that strike the perfect balance between price and quality for our clients. At Jareed, we craft communities that go beyond mere buildings, reimagining what it means to live, grow, and connect. Furthermore, every project is carefully chosen for its promising and strategic location, ensuring both convenience and future potential. And at the core of these communities, we integrate state-of-the-art interactive facilities that foster personal growth, encourage collaboration, and support the evolving needs of our residents. Through these actionable methods, we build more than just spaces—we create environments that nurture you every step of the way.
